Contractor Owner Safety Team Outstanding Contribution

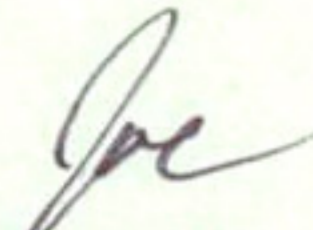

The long-standing vision of the Contractor Owner Safety Team (COST) is:
“Michigan Operations is an Injury Free Workplace and the Benchmark for Safety Performance for all Dow Chemical Global Manufacturing Sites.”

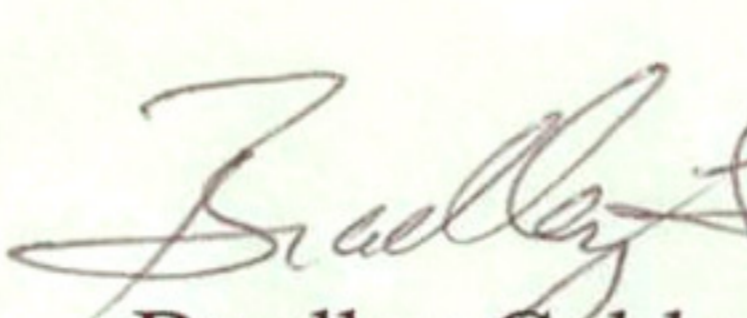

COST would like to recognize you for your outstanding efforts to improve contractor safety performance within Michigan Operations (MiOps) by working with the BBP Group.

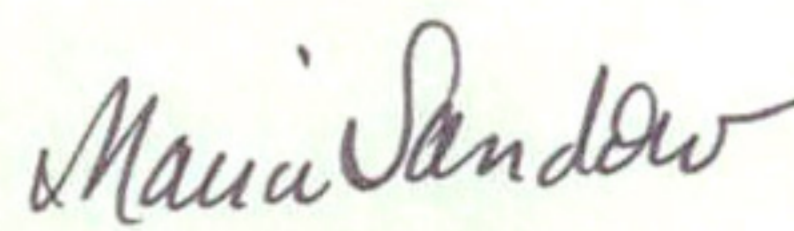

The leadership and priority you have given this group has been instrumental and very much appreciated not only by COST and MiOps, but also by your employees and their families.

This is truly a noble cause which demonstrates your commitment to your employees, and also to the long-term safety of workers in the Mid-Michigan area.

Congratulations and thank you for your great efforts.

Joe Dostal
Dow Chemical Co.
